

Executive Order 13514

EO 13514 Federal Leadership in Environmental, Energy, and Economic Performance requires the Federal government to establish an integrated strategy towards sustainability. The EO requires agencies to ensure that 95% of Federal purchases, amongst other initiatives,

contain recycled content.

Spill Control Pallets

EPA compliant pallets are the recommended choice for hazardous liquid drum storage. Large sump offers secure protection against spills and exposure.

100% Recycled

Accumulation Centers

Low-profile accumulation centers are the economical solution to spill concerns during drum filling and dispensing operations. Modular configurations can be joined to increase sump capacity.

100% Recycled

Overpack/Salvage Drum

For overpacking of damaged containers, collection and transport, emergency response, and cleanup of contaminated sites.

100% Recycled

Spill Trays

Small scale spill protection.

100% Recycled

Drum Management System

Double storage capacity with an EPA compliant system. Large open-view sump offers positive spill control, easy clean-up and safe liquid dispensing.

100% Recycled

Drum Caddy

Dispense, store and move heavy drums with this versatile solution to single drum handling. Large open-view sump provides EPA compliant spill protection.

100% Recycled

2-Drum Collection Center

The perfect solution for small quantity storage, indoors or out. Forkliftable for easy relocation.

100% Recycled

1-Drum Center & Funnel

Large capacity funnels provide a simple, cost-effective way to collect liquids and keep drum tops clean. Optional flame arrester is available for flammable liquids.

100% Recycled

Drum Sheds

Outdoor spill protection meets EPA

55% Recycled

IBC Drum Pallet & Shed

Outdoor spill protection

40% Recycled

IBC Drum Pallet

EPA compliant indoor spill protection

40% Recycled

Elite™

Smokers Cease-Fire®

Safe outdoor receptacle for cigarette litter

75% Recycled

JUSTRITE® EcoPolyBlend™ Solutions

EO 13514 Sec 2 (h). Advance sustainable acquisition to ensure that 95 percent of new contract actions including task and delivery orders, for products and services with the exception of acquisition of weapon systems, are energy-efficient (Energy Star or Federal Energy Management Program (FEMP) designated), water-efficient, biobased, environmentally preferable (e.g., Electronic Product Environmental Assessment Tool (EPEAT) certified), non-ozone depleting, contain recycled content, or are non-toxic or less-toxic alternatives, where such products and services meet agency performance requirements.
