

Safety Containers FOR LABORATORIES

13001 with
13913

13006

13008

13009

Justrite Stainless Steel Dispensing and Jerry cans are for safe distribution and exact dispensing of flammable liquids when high media purity or resistance is required. Unpolished, 1.4571 stainless steel. Seal - Teflon. Plastic protection ring on dispensing can. Both types of cans have:

- Self-closing fine dispenser tap
- Venting in fine dispenser
- Flame arrester in container neck
- High resistance and purity
- Automatic pressure compensator/vacuum compensator (with pressure > 0.3bar)
- Marking prepared meeting GeStoffV and BGV A1
- G 3.2 cm (1-1/4") pipe thread for Dispensing cans;
G 3.8 cm (1-1/2") pipe thread for Jerrycans

Accessory for Stainless Steel Dispensing Cans

- Soaking Dish Set - Stainless Steel 1.4301 Compatible with 1 or 2 litre can - Easy replacement: remove the flame arrester and screw the soaking dish set to the can.

Justrite Stainless Steel Distribution Cans are for the safe, convenient dispensing of flammable liquids when larger quantities are required. Unpolished 1.4301 stainless steel. Plastic protection ring. Seal - Teflon. High resistant PFA contents display.

- Manual pressure compensator/vacuum compensator
- Flame arrester in container neck
- Stackable; high stability
- Exterior contents display on Model No. 13009
- Self-closing tap
- High resistance and purity
- Marking prepared meeting GeStoffV and BGV A1
- G 3.8 cm (1-1/2") pipe thread on top; 1.9 cm (3/4") on bottom
