

## Safety Containers FOR LABORATORIES

13001 with  
13913

13006

13008

13009

**Justrite Stainless Steel Dispensing and Jerrycans** are for safe distribution and exact dispensing of flammable liquids when high media purity or resistance is required. Unpolished, 1.4571 stainless steel. Seal - Teflon. Plastic protection ring on dispensing can. Both types of cans have:

- Self-closing fine dispenser tap
- Venting in fine dispenser
- Flame arrester in container neck
- High resistance and purity
- Automatic pressure compensator/vacuum compensator (with pressure > 0.3bar)
- Marking prepared meeting GeStoffV and BGV A1
- G 3.2 cm (1-1/4") pipe thread for Dispensing cans;  
G 3.8 cm (1-1/2") pipe thread for Jerrycans

### Accessory for Stainless Steel Dispensing Cans

- Soaking Dish Set - Stainless Steel 1.4301 Compatible with 1 or 2 litre can - Easy replacement: remove the flame arrester and screw the soaking dish set to the can.

**Justrite Stainless Steel Distribution Cans** are for the safe, convenient dispensing of flammable liquids when larger quantities are required. Unpolished 1.4301 stainless steel. Plastic protection ring. Seal - Teflon. High resistant PFA contents display.

- Manual pressure compensator/vacuum compensator
- Flame arrester in container neck
- Stackable; high stability
- Exterior contents display on Model No. 13009
- Self-closing tap
- High resistance and purity
- Marking prepared meeting GeStoffV and BGV A1
- G 3.8 cm (1-1/2") pipe thread on top; 1.9 cm (3/4") on bottom
